## CAREER OBJECTIVE

**Software Engineer** specializing in **front-end development (React.js, Next.js, and TypeScript)**, with **back-end experience in Python, FastAPI, MySQL, and MongoDB.** Experienced in **creating automation workflows (n8n and Zapier)** with integration on React apps, Google services, and social platforms. Strong in **agile, remote-first collaboration** and applying system design principles to deliver high-quality solutions. __Seeking a software engineering role__ where I can apply my **full-stack and automation expertise to develop impactful, end-to-end solutions.**

## KEY COMPETENCIES

__Proficient Skills__ & Exposure / Working Knowledge__:__

- **Fontend**: **HTML** | **CSS** | **Javascript** | **React JS** | **Typescript** | **Tailwind CSS** | **API Integration** | **MaterialUI** | **UX/UI** | **Design Thinking** | **Bootstrap** | **Axios** | NextJS | GSAP | Figma | Low & High Fidelity Wireframe | Authentication via JWT / OAuth | Java Android Development | Custom React Hooks | React Native

- **Backend: Python** | **FastAPI** | **REST API Development** | **Node.JS** | **SQL** | **MongoDB** | **Express.js** | **API authentication & handling third-party APIs** | **Python Scripting** | **CRUD operations** | **Database Querying and Management** | C | Java | Firebase | Django | PostgreSQL | Authentication/authorization (OAuth2, JWT, sessions) | Pub/Sub Redis

- **Tools/Others: Git & GitHub/GitLab** | **Postman** | **npm/npx** | **Vite** | **Google APIs & Services** | **Agile Methodology** | **Data Structures** | **Detailed Documentation Writing** | **SEO basics** | Expo Go | AWS DynamoDB | Docker | SSH | CI/CD | Vercel | Netlify | Apache Airflow | Wordpress | Gravityforms | Webhooks | GoHighLevel Integration

## PROFESSIONAL EXPERIENCE

### *BOOM AI SOLUTIONS OPC* | *Software Engineer*                May 2024 - Present

- Build web applications **(CRMs and custom websites), integrating backend services, and creating workflow automations** while **collaborating** with a **cross-functional team.**
- Built **React.js/Next.js applications using TypeScript/Javascript, Tailwind CSS, and API integrations**, with reusable components and responsive layouts.
- Integrated **REST APIs with Axios, Node.js, and Python FastAPI,** enabling seamless frontend-backend communication.
- **Designed and managed SQL and MongoDB databases**, handling **CRUD** operations and **query optimization**.
- Improved interfaces using **UX/UI principles and user-centered design**.
- Worked on **backend authentication/authorization with** JWT, OAuth2, and session management.
- Used **Git/GitLab, Postman, SSH, Docker, and CI/CD** for development, testing, and deployment.
- Built **workflow automations** and integrations using **webhooks, GoHighLevel, WordPress, and GravityForms.**
- **Additional exposure** to using **jQuery, Django, Pub/Sub Redis, AWS DynamoDB, and Apache Airflow.**

### *Order LemonTea PH* | *(Freelance) Web Developer* ➡ www.orderleamontea.com     May 2025 - August 2025

- Handled the **end-to-end development** of a modern, responsive website for a small business, helping generate **franchisor leads within the first 2 months of website being online.**
- **Led planning, design, development, and client communication from start to launch** and additional, features, and updates.
- Developed the site using **React.js and Tailwind CSS, following mobile-first responsive design** principles mainly utilizing **GSAP** for **animations and transitions**
- Created **wireframes** and **prototypes** in **Figma** to define layout and user flow.
- Implemented **SEO best practices**, achieving a **Lighthouse SEO rating of 83** for both desktop and mobile.
- Integrated **Microsoft Clarity** to track user behavior and inform UX improvements.
- Delivered **post-launch updates and feature enhancements** based on client feedback.
- Managed **version control with Git & GitHub**, and deployed the site using **Vercel** for fast, reliable delivery.

### *GALLIUS SHARED SERVICES OPC* | *Assoc. Product Support Engineer*      November 2023 - April 2024

- **Monitored** and maintained **production service performance**
- Executed **troubleshooting** using **Kibana** and **Zabbix and** handled **JIRA ticket management.**
- Ensured system availability, performed service restarts, and managed file transfers.
- Completed various assigned tasks and projects related to the company's goals and services to clients.

### *CONVERGE ICT SOLUTIONS INC.* | *Software Engineer Intern*      July 2022 - September 2022

- Conducted **Usability Research**, focusing on **website design best practices**.
- Applied findings to **develop a high-quality front-end replica** of gofiber.com using **ReactJS, React-Bootstrap, and StorybookJS.**
- Demonstrated proficiency in **design processes** by **creating both Low-fidelity and High-fidelity** designs their system.
- **Spearheaded** the **creation of High-fidelity designs** and the **frontend implementation** of the company's user tracker system, highlighting hands-on experience in **frontend development using ReactJS and Material UI.**

# PROJECTS TO SHOWCASE

### Order Lemon Tea Website
www.orderleamontea.com
- Created a **modern, static, responsive website** built using **react js and utilizing GSAP** for animations and transitions for a small business, **improving online presence** and **lead generation for their potential franchisors.**

### Developer Portfolio Website
https://jegolazaro.vercel.app/
- Dynamic developer portfolio website crafted with **React JS, Tailwind CSS, Vite, and NodeJS, showcasing notable projects, skills, and expertise.**

### Crypto Tracker Website
https://cryptowatch-hq.vercel.app/
- Track crypto prices seamlessly with our **React.js and Tailwind** CSS-powered tool. Real-time updates, **interactive design, and a sleek interface** for effortless crypto tracking.

### La Parrilla de Manila Restaurant Website
https://laparrillademnl.netlify.app/
- Crafted a visually appealing restaurant website with React JS and Tailwind CSS, seamlessly **integrating Google Maps API** to help customers find the location easily
